

Guidelines

We make grants for running costs and **not capital expenditure** to small registered charities in England and Wales to help sustain their existing work.

Eligibility Criteria

We offer grants only for core funding to **registered charities** with a total annual expenditure of **less than £40,000** who are undertaking work that focuses on one of our priority groups:

- Elderly people
- Children and young people aged 5 - 25
- People with physical impairments, learning difficulties or mental health challenges
- Social welfare - people trying to overcome life-limiting problems of a social, rather than medical, origin (such as addiction, relationship difficulties, abuse, offending)
- Education and learning (with a particular interest in people who are educationally disadvantaged, whether adults or children)

We **only** make grants for core funding. We define core funding as the costs associated with regular activities or services that have been ongoing for **at least a year**. We can **not** fund new projects, extra services or additional delivery costs. This includes creating a paid post for work that is currently undertaken on a voluntary basis or rent for premises that are currently cost free.

We can only offer grants to registered charities that have been formally established for a **minimum of 3 years**. Newly registered charities may apply but the organisation must have appointed a management committee and adopted a governing document at least 3 years ago.

Grant Making Policy

We will fund running costs for **up to three years**. Grants are for a **maximum of £3,000** per year. Most of our grants are for more than one year because we like to fund ongoing needs. We prefer to make a grant when other funding is coming to an end. We prioritise:

- Work that is unattractive to the general public or unpopular with other funders
- Services that help to improve the lives of marginalised, disadvantaged or isolated people
- Applicants that can demonstrate an effective use of volunteers
- Charities that seek to be preventive and aim to change opinion and behaviour through raising awareness of issues, education and campaigning
- Applicants that can demonstrate (where feasible) an element of self-sustainability by charging subscriptions/fees to service users

Applications that don't address **at least two** of the above are unlikely to receive a grant.
